Measuring & Ordering Instructions

Selecting the Type of Mounting:

Determine whether the cellular shade is going to be installed inside the window frame or outside the window frame.

Inside Mount (IB):

Inside mount installations are often preferred because the shades take up less space in the room.

Measuring the Width and the Length for Inside Mount:

For the width, measure across the top, middle, and bottom of the window opening. Using the narrowest dimension, measure to the nearest 1/8". By using the narrowest measurement the shade will operate correctly.

For the length, measure the up and down dimension on the left, center, and right side. Use the longest length measurement, measuring to the nearest 1/8".

The factory will make any appropriate deductions. Do not make any width deductions.

Outside Mount (OB):

Outside mount installations are mounted on the wall or on the window molding. It is best to overlap the window opening by at least 3/4" on each side when measuring for cellular shades.

Measuring the Width and the Length for Outside Mount:

Measure the area that the cellular shade is to cover. For cellular shades it is recommended to overlap the window opening by at least 3/4" on each side for a total of 1 1/2". To allow for enough space for the mounting brackets and to cover the bottom of the window, the suggested overlap for a cellular shade is at least 3" (1 1/2" above the window opening and 1 1/2" below the opening). If the window opening has a sill, measure from where the top of the cellular shade will be located to the top of the window sill.

Note: When outside mount cellular shades are specified, no factory deductions are taken.

Confirming Measurements:

The most common error in ordering cellular shades is reversing the width and the length measurements. Always confirm that the width is the measurement that goes across from left to right and that the length is the measurement that goes from top to bottom.

In compliance with the latest manufacturing safety guidelines Mariak Window Fashions includes with each fully-assembled product warning tags, warning labels, safety devices and cord cleats. Installers of the finished product must adhere to the safety guidelines as established by the installation instructions and by using all devices provided by the manufacturer. It is the responsibility of the installer, as well as the end consumer, to see that all safety devices are properly installed according to the manufacturers installation instructions included with each device and remain so throughout the life of the product. Mariak Window Fashions is not liable for injuries or fatal occurrences related to improper installation or maintenance of required safety devices.

All prices are in U.S. Dollars and do not include freight, duties or taxes for shipment to Alaska, Hawaii or Canada. GST and VAT are not included. Other restrictions and surcharges may apply. See Freight Policy for complete details.

Cellular Shade Options

Standard Pull Cord Cellular Shade

This cellular shade is operated by pulling a lift cord. Using a heavy duty cord lock mechanism, the shade can be raised or lowered by simply releasing the pull cord with a slight tug at an angle. This action will stop the shade from being raised or lowered and will lock the shade in place.

Minimum Width: 8"
Maximum Width: 96" as 1 piece or 144" as a 2-On-1 Shade
Minimum Height: 8"
Maximum Height: 144"

Continuous Cord Loop Cellular Shade

This cellular shade is raised or lowered by pulling a continuous cord. Cord loop shades use a heavy duty clutch operating device that makes lifting the shade a breeze. It also allows the consumer to position the shade exactly at the preferred height. This clutch feature eliminates concerns about the cord lengthening and reaching the floor as the shade is raised because the cord loop always remains the same height. Shades with this upgrade will remain level as the shade is raised and lowered.

Minimum Width: 18"
Maximum Width: 120" as 1 piece or 144" as a 2-On-1 Shade
Minimum Height: 8"
Maximum Height: 144"

Top-Down Only Continuous Cord Loop Cellular Shade

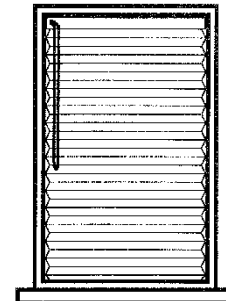

Using the continuous cord loop mechanism described above, this shade option lowers the fabric from the top of the shade. The bottom rail of the shade is stationary and fixed at the bottom of the window. This option allows light from above without forgoing privacy from below. Available with continuous cord loop controls only.

Minimum Width: 18"
Maximum Width: 72"
Minimum Height: 8"
Maximum Height: 96"

Top-Down/Bottom-Up Cellular Shade Standard Pull Cord

This cellular shade features the ability to both raise the shade from the bottom and lower it from the top. It combines both the functions of a standard shade and a top-down only shade. Right side lift cords will raise the shade from the bottom, while left side lift cords lower the shade from the top. Available with standard pull cord controls or cordless.

Minimum Width: 18"
Maximum Width: 72"
Minimum Height: 12"
Maximum Height: 72"

Mariak

Cellular Shade Options

Cordless Cellular Shade

This cellular shade is operated by pushing up or pulling down the bottom-bar. Using an innovative, state-of-the-art cords-free lifting mechanism, the shade can be raised or lowered by grabbing a handle located at the bottom of the shade. Raising the handle up or pulling the handle down will stop the shade at any mid-window position. Top-Down / Bottom-Up Cordless & Top Down Only Cordless is available for an additional surcharge.

Standard Cordless	Top-Down/Bottom-Up Cordless	Top-Down Only Cordless
Minimum Width: 18"	Minimum Width: 18"	Minimum Width: 18"
Maximum Width: 84"	Maximum Width: 72"	Maximum Width: 72"
Minimum Height: 12"	Minimum Height: 12"	Minimum Height: 12"
Maximum Height: 84"	Maximum Height: 72"	Maximum Height: 72"

Day/Night Cellular Shade

This cellular shade option combines two different fabrics in one shade. A room darkening fabric can be lowered from the top of the shade, while a light filtering fabric used for additional privacy can be raised from the bottom. Right side lift cords will control the day/night feature, while left side lift cords raise the entire shade. Available with standard pull cord controls only. Available with 3/4" Single Cell fabrics only.

Minimum Width: 12"
Maximum Width: 72"
Minimum Height: 18"
Maximum Height: 96"

2-On-1 Headrail Cellular Shade

Pull Cord Shade Option

Continuous Cord Loop Option

Minimum Width: 8"
Maximum Width: 144"
Minimum Height: 8"
Maximum Height: 144"

Minimum Width: 18"
Maximum Width: 144"
Minimum Height: 18"
Maximum Height: 144"

Note: There will be a 1/4" light gap between the fabric shade panels.

Note: Controls for the left shade will be left and controls for the right shade will be right.

Fanned Angle Top and Bottom Windows

Minimum Width: 12"
Maximum Straight Width: 72"
Maximum Angle Width: 84"
Minimum Height: 12"
Maximum Height: 96"

Note: This is a non-functioning cord lock.

Note: Angled Top Shades have two top rails.

Mariak

Cellular Shade Options

Shade with Cutout

To avoid obstacles, shades may require cutouts. They are available at the bottom of the shade only. Available with both standard pull cord and continuous cord loop controls.

Note: Please allow ¼" clearance for the obstacle. The section of the shade below the obstacle will not stack when the shade is raised. There are a maximum of two cutouts per shade.

Additional Specialty Cellular Shade Options

Hexagonal Windows

Minimum Width: 12"
 Maximum Width: 48"
 Minimum Height: 12"
 Maximum Height: 48"

Octagonal Windows

Minimum Width: 15"
 Maximum Width: 48"
 Minimum Height: 15"
 Maximum Height: 48"

Circular Windows

Minimum Diameter: 15"
 Maximum Diameter: 48"
 Indicate the width and height at the center of the shade.

Note: Stationary shade for inside mount only.

Arch Windows

Minimum Width: 12"
 Maximum Width: 84"
 Minimum Height: ¼" of width or 6" (use largest size)
 Maximum Height: ½" of width or 42" (use smallest size)

Note: Stationary shade.

Note: Inside or outside mount.

Half Arch Windows

Minimum Width: 6"
 Maximum Width: 42"
 Minimum Height: ¼" of width or 6" (use largest size)
 Maximum Height: ½" of width or 42" (use smallest size)

Note: Stationary shade.

Note: Inside or outside mount.

Arch Over Window Shades

Minimum Width: 12"
 Maximum Width: 48"
 Minimum Height: 18"
 Maximum Height: 144"

Special Brackets

Hold Down Brackets:

Hold down brackets are available to secure the bottomrail in position. These brackets stop a shade from bouncing and loosely swinging if the shade is hung on a door.

Spacer Blocks:

Spacer blocks are available for outside mount shades. When the shade must operate around an obstruction, these spacers project the shade away from the wall to clear the obstruction. Spacer blocks may be stacked for additional projection.

Mariak

Cellular Shade Options

Battery Powered Motorized Cellular Shade

This cellular shade is operated by a battery powered motor system. At the press of a button, shades can be raised up, exposing a room to sunlight, or lowered down, filtering light from entering a room. This unique motor system has full lift control of shades that are up to 12.5 lbs. The motor is powered by AA lithium battery packs, which can be mounted to the ceiling or installed to the wall. The battery life expectancy is 1 to 5 years (based upon 4 operations per day and the weight of the shade). Battery powered cellular shades are available with radio frequency controls. Cellular shades controlled by radio frequency may be operated as an individual unit, as sub-groups, and as an entire group. Please consult Mariak technical support with any questions you may have.

Battery Powered Cellular Shade Surcharges: Batteries are included with motors & controls.

- RF Battery Motor – 12-volt..... \$ 750.00
- Radio Frequency Transmitter 1-Ch..... \$ 200.00
- Radio Frequency Transmitter 5-Ch..... \$ 260.00
- Radio Frequency Wall Switch 1-Ch..... \$ 470.00
- Radio Frequency Wall Switch 5-Ch..... \$ 500.00

RF Hand Held Transmitters Available As 1 & 5 Channel

RF Wireless Wall Switches Available As 1 & 5 Channel

Minimum Width:	27"	Approximate Size Restriction
Maximum Width:	96"	96" x 96" (Single Cell)
Minimum Height:	18"	84" x 84" (Double Cell)
Maximum Height:	96"	72" x 72" (Blackout Cell)

Cellular Shade Fabric Information

Factory Deductions: Inside mount shades have a 3/8" deduction in width.

Headrail Dimensions:

Headrail Type	Cellular Fabric Type	Dimensions
Standard Pull Cord	All Fabrics	1 1/8" X 3/4"
Continuous Cord Loop & Cordless	All Fabrics	1 3/8" X 1 1/2"

Stack Height Chart: (Includes Headrail and Bottomrail)

Height of Shade	Total Thickness			
	9/16" Single Cell	7/16" Double Cell	3/4" Single Cell	3/4" Blackout
12" – 18"	1 3/4"	2 3/8"	1 5/8"	5"
19" – 30"	2 1/8"	2 3/4"	1 3/4"	5 1/2"
31" – 42"	2 1/4"	3 1/8"	2"	6"
43" – 54"	2 1/2"	3 3/8"	2 1/4"	6 1/4"
55" – 66"	3"	3 3/4"	2 1/2"	6 1/2"
67" – 78"	3 1/2"	4"	2 3/4"	7"
79" – 90"	3 3/8"	4 3/8"	3"	7 3/8"
91 – 96"	4 1/4"	4 3/4"	3 1/2"	7 3/4"

Note: These are estimated measurements and may vary slightly.

Cleaning Instructions:

Shades should be dusted regularly with a soft, clean cloth, feather duster or lightly vacuumed with a soft brush attachment. To spot clean, use a cloth or sponge with mild detergent and lukewarm water. Rinse thoroughly. Complete immersion is not recommended unless shade is badly soiled. If shade is immersed in water, make certain that all hardware components are thoroughly dried immediately after rinsing. Drain any excess water from fabric and raise shade to set pleats. Lower shade until fabric is completely dry.

Safety Information:

To insure child safety, it is strongly recommended that each shade be installed with a cord safety cleat provided by the manufacturer.

Surcharges:

- Cutouts = \$45.00 per cutout
- Top-Down/Bottom-Up Standard Pull Cord= \$60.00 per shade
- Top-Down Only = \$65.00 + Continuous Cord Loop surcharge per shade
- Top-Down/Bottom-Up Cordless = Cordless Surcharge based on price tables + \$60.00
- Top-Down Only Cordless = Cordless Surcharge based on price tables +\$30.00
- Day/Night = Price as the total of two separate shades

- Battery Powered Motorized Shade = Refer to Page 7
- Cordless Options = See price tables
- Arches, Half Arches, & Specialty Shapes = \$125.00
- Two-On-One Headrail = \$20.00 Net (price as on overall)
- Three-On-One Headrail = \$30.00 Net (price as on overall)
