Trademarks & Patents

Caslan Cords-Free Roman Shades:

This unique patented product offers the advantage of a Roman Shade in front with the double insulation of a Cellular Shade in back. Safe Cords-Free & Energy Efficient!

✓ D 636,204 US20120031569A1

Roller Shades:

- ✓ **Safe Grip Spine System™** - This flexible PVC extrusion establishes an effective process for securing the Roller Shade cloth to the **Max-Roll Aluminum Tube™**. The innovative shape and composition locks the shade cloth in place, preventing the cloth from falling off the tube; creating an effective method of keeping the shade cloth straight and substantially reduced the amount of telescoping.
- ✓ **Platinum Clutch™**- The Heavy-Duty commercial chain operated clutch mechanism allows for precise positioning of the Roller Shade. The bi-directional clutch never needs adjustment and stops automatically to hold the shade in the desired position. Retractable idler end, guide ramp and notchless valance provides for easy installation.
- ✓ **Level-Correct Bracket™** - Idler end can be adjusted with the Allen Wrench provided in each fascia bracket for easy on-site leveling without removing and re-installing the fascia bracket.
