## Mariak Cords Free Caslan Roman Shade:

This unique patented product offers advantages of the Roman Shade in the front, combined with a Cellular Shade on the back. Both shades are suspended from one head rail and operated by an assisted lifting mechanism. Lifting cords are imbedded in the cellular material, making them inaccessible from outside. Sections of the Roman Shade are joined together and connected to the Cellular Shade.

Inside Mount Valance

Outside Mount Valance with Returns

Flat Caslan Roman Shade:

The Flat Caslan Roman Shade is a structured, contemporary look that requires minimal dressing. This style Roman Shade has the lift control cord in *front* of the shade. When completely down, the shade lays flat, covering the window. When raised, the material rises from the bottom in flat folds. Flat Roman Shades pleat every 6 1/2″. This shade option includes a 5 1/2″ valance. Flat shades stack very efficiently. Cord Loop, Cordless and Motorized lift options are available.

Minimum Width:	6″	Minimum Height:	6″
Maximum Width:	120″	Maximum Height:	120″

- Inside Mount Valance will not come with returns.
- Outside Mount Valance complete with returns.

Outside Mount Valance with Returns

Hobbled Caslan Roman Shade:

The Hobbled Roman Shade is a tailored style with a soft feel. This type of Roman Shade has the lift control cord in front of the shade. When completely down, the shade offers cascading folds every 5 1/4″. This shade option includes a 5 1/2″ valance. Cord Loop, Cordless and Motorized lift options are available.

Minimum Width:	6″	Minimum Height:	6″
Maximum Width:	120″	Maximum Height:	120″

- Inside Mount Valance will not come with returns.
- Outside Mount Valance complete with returns.

Outside Mount Valance with Returns

Top-Down/Bottom-Up Caslan Roman Shade:

Top-Down/Bottom-Up Roman Shades feature the ability to both raise the shade from the bottom and lower it from the top. Typically, the right side lift cords raise the shade from the bottom, while the left side lift cords lower the shade from the top. This shade option includes a 5 1/2″ valance and is available in both Flat and Hobbled Styles.

Note: A Top-Down Only feature is available with Cord Loop shades. Cordless & Motorized lift options are not available.

Minimum Width:	24″	Minimum Height:	24″
Maximum Width:	72″	Maximum Height:	96

- Inside Mount Valance will not come with returns.
- Outside Mount Valance complete with returns.
